

“Woof! Amazingly Fast and Complete!”

The **Woof!™** is the world's first and only on-demand delivery and dispensing system for aqueous chlorine dioxide for use in the safe and hygienic remediation of animal living spaces to include boarding, kennels, enclosures and cages. Chlorine dioxide is known world-wide as a premium deodorizer which removes the world's toughest odor causing compounds. Because chlorine dioxide reacts quickly once generated, it is critical that it is made to exact standards when and where you need to use it. The **Woof!™ System** creates fresh material for each application. Using the ReliOx™ High Performance Cold Fogger (included with the system) you can quickly remediate large areas, surfaces, tables and floors with the safest and most effective product ever available.

Use of the system is as easy as ABC as each component is clearly marked and sealed to ensure no user interference. Ease of use and safety are assured and controlled as the **Woof!™ System** is engineered to dispense a solution concentration specific for use in and around animal dwellings and common areas. Plug the components together and you are in business!.

Woof!™ adheres to Green Chemistry principles and all its components are recyclable or reusable.

Woof!™ is the smart product to choose for all kennel environmental needs.
